

Sponsored By:

- Chinese Society of Theoretical and Applied Mechanics
- Chinese Society of Petroleum Sciences
- Chinese Society of Rock Mechanics and Engineering
- Orient Academic Forum (Australia)

Organized By:

- Wuhan Polytechnic University
- Huazhong University of Science and Technology
- China University of Geosciences (Wuhan)
- Institute of Porous Flow and Fluid Mechanics, CAS
- Wuhan University

Organizing Committee

General Chair:

Liu Jian-jun, Wuhan Polytechnic University
Zhao Rui-mei, China University of Geosciences (Beijing)

General Co-chair:

Wang Lai-gui, Liaoning Technical University
Yu Bo-ming, Professor, Huazhong University of Science and Technology
Hu Bin, Professor, China University of Geosciences

Academic Committee

Honorary Chairman

Guo Shangping
(Academician, RIPED)

General-Chair:

Han Da-kuang
(Academician, RIPED)

General Co-chair

Wang Demin, Xian Xuefu,
Nakayama Akira,
Du Zhimin, Wang Sijing,
Ge Jiali, Liu Xiangui,
Tang Huiming, Li Xiaohong

Call For Papers

2009 International Forum on Porous Flow and Applications

April 26~28, 2009, Wuhan, P.R.China

<http://seep2009.whpu.edu.cn>

2009 International Forum on Porous Flow and Applications (IFPFA 2009) will be held on April 26-28, 2009 in Wuhan China together with the 10th National Conference on Fluid Mechanics in Porous Media. All accepted paper will be included in the proceedings to be published by the Orient Academic Forum in Australia, and will be indexed by ISTP. The Proceedings will be issued to more than 200 universities and research institutes all over the world.

The emphasis of IFPFA 2009 will be on the development of theories and methodologies in the field of porous flow and applications. It covers all topics in porous flow, including, but not limited to:

- New Advances, New Challenge & Strategy
- Porous Flow in Geotechnical and Water Conservancy Project
- Porous Flow in Resources and Energy
- Ground Water Flow and Pollution Control
- Experimental Studies on Porous Flow
- Physical and Chemical Porous Flow
- Computational Studies on Porous Flow
- Multi-Scale Theory of Porous Flow
- Non-Darcian, Non-Newtonian, Non-Isothermal, Non-Linear Theories in Porous Flow
- Multi-Field Coupling Theory of Porous Flow
- Porous Flow in Biotechnology
- Heat and Mass Transfer in Porous Media
- Porous Flow in Environment and Chemical Fields
- Others Related to Porous Flow

Submission and Publications:

All papers (less than 5 pages) should be in DOC or PDF format, and should be submitted electronically through Email to shenliu10@163.com or shenliu10@sina.com. The manuscripts should be written in English and follow the format provided by OAF (Please download from the web: <http://www.shiji2005.com>).

Important Dates:

- Submission Deadline: October 20, 2008
- Decision Notification: November 20, 2008
- Camera-ready Submission: December 20, 2008

About Wuhan City:

Wuhan, the capital of Hubei Province, is a historic and cultural city in central China, with a population of about 10 millions. It has abundant cultural and tourist resources, including the famous Yellow Crane Tower, and East Lake Scenic Zone. The famous 1911 revolution took place in Wuhan. Wuhan is also the transit city to the famous Three Gorges.
